

MEMBERSHIP IN THE AMERICAN NUCLEAR SOCIETY

The American nuclear Society is an international, not-for-profit scientific and educational organization consisting of approximately 11,000 engineers, scientists, educators, students, and others with nuclear-related interests. These individuals represent more than 1,600 corporations, educational institutions, and government agencies - approximately 900 members live overseas in 40 countries.

The Society's main objective is to promote the advancement of engineering and science relating to the atomic nucleus. Other purposes are to integrate the many nuclear science and technology disciplines, encourage research, establish scholarships, disseminate information through publications and journals, inform the public about nuclear-related activities, hold meetings devoted to scientific and technical papers, and cooperate with government agencies, educational institutions, and other organizations having similar purposes.

The entire nuclear science and technology field benefits from ANS' activities and programs. Individual ANS Members can take advantage of numerous opportunities to achieve personal career objectives and professional growth; they can also influence the Society's activities and attitudes, and ultimately, public opinion.

You can directly influence the future of nuclear through ANS standards development, public information efforts, paper presentations, meeting attendance, and committee and steering group participation. ANS membership provides opportunities for professional expression and recognition and gives you the chance to mix with all levels of the nuclear community through the ANS national organization, its 19 divisions, 52 U.S. and nine overseas local sections, and 23 plant branches.

Membership benefits include:

- a yearly subscription to *Nuclear News* magazine (13 issues), the world's leading nuclear publication, *ANS News* (6 issues), plus the renowned *Nuclear News Buyers Guide*
- membership in two ANS divisions
- lower meeting registration fees
- discounts on the Society's three technical journals (*Nuclear Science and Engineering*, *Nuclear Technology*, and *Fusion Science & Technology*), *Radwaste Solutions*, and numerous other publications
- access to the Members-Only portion of our website, including the ANS Career Center
- various honors and awards and scholarships
- recognition for sponsoring new members
- the opportunity to participate as a mentor or protégé to other members
- insurance programs

An application form accompanies this. You can also complete an application for membership at the ANS website, www.ans.org, or contact the Membership Department at 1-800-323-3044 to receive an application by mail or fax.

CONNECTING TO THE NUCLEAR WORLD.

Join ANS to

ADVANCE YOUR CAREER

Gain Knowledge and a Professional Edge

ANS leads in the development, dissemination and application of nuclear science and technology through:

- A large membership of experts from nuclear science and technology sectors
- Articles, papers, and books (*Nuclear News*, professional journals, proceedings, transactions)
- Conferences and workshops addressing the latest developments in nuclear science and technology
- Development of Standards
- Division memberships (two included free with ANS membership)

Stand with a Credible Voice Supporting the Advancement of Nuclear Science

- To the general public, regulators, and legislators
- Through the ANS Center for Nuclear Science and Technology Information
- Through the Congressional Seminar Series, teacher workshops, and position papers

Access tools to Network and Collaborate with Peers, Leaders and Mentors

- ANS Collaborate – a virtual networking site exclusively for ANS members
- ANS Mentor Match where those fresh in their careers are able to connect with seasoned professionals through an online database and discussion groups
- Conferences, workshops, and meetings
- Online discussion forums such as Facebook and LinkedIn
- *The Nuclear Cafe* – the ANS blog for all things nuclear
- Volunteering and participation opportunities in local sections, divisions and a wide variety of committees
- Members Only community at ans.org

The American Nuclear Society is a not-for-profit, international, scientific and educational organization, and the premier society for nuclear professionals. Established in 1954 at the National Academy of Sciences in Washington, D.C., ANS was created by a group of individuals who recognized the need to unify professional activities within the various fields of nuclear science and technology. ANS has since developed a diverse membership composed of approximately 11,000 engineers, scientists, administrators, and educators representing more than 1,600 corporations, educational institutions, and government agencies.

ANS provides extensive opportunities for every professional group in the nuclear field to interact effectively via 22 divisions and technical groups, local sections, and student sections.

➔ Application on other side, or apply online at ans.org/join

Recognition through Honors and Awards

ANS has a vigorous program to honor outstanding achievement and meritorious service in nuclear science and technology. Prestigious awards range from Fellow status conferment to named awards honoring highly respected individuals in their field.

Included in Your Membership

- *Nuclear News* – Monthly worldwide developments in the nuclear field including interviews with the movers and shakers who shape the profession
- ANS Policy Wire – Stay current on federal legislative and regulatory developments impacting nuclear science and technology
- *ANS News* – Bi-monthly reporting on the activities of the society, including public outreach efforts, position statements, honors and awards, and member news
- *Nuclear Headlines* – Nuclear-related e-news coverage from 25,000 global sources, updated every 15 minutes
- *Notes and Deadlines* – Monthly e-bulletin covering timely nuclear topics
- E-Journal Subscriptions – deeply discounted with access to the Digital Nuclear Library – the central repository containing all digital content of the ANS Journals and other materials from Scientific Publications
- ANS Collaborate – a networking site to exchange information, connect with peers, ask questions, and share knowledge and resources with nuclear professionals around the world
- ANS Mentor Match – an online database to help members find, connect, and share insight with other members
- Career Center – open jobs list and FREE resume posting
- Membership in two ANS Divisions – providing specialty information and networking opportunities in your area of interest
- Substantial savings over the non-member registration fee at ANS conferences
- Discounts on ANS books, Standards, and other publications in our online store

The Society serves as an advocate for individuals and organizations having a stake in nuclear science and technology. ANS produces position papers covering current nuclear-related topics, and our Washington, D.C. office acts as a technical resource to senior policy and decision makers. Through the Honors and Awards Program, ANS recognizes members for outstanding efforts and accomplishments in their fields.
